

# COMPLETE MAXILLOFACIAL ORTHOPAEDICS

## PART A: 2-DAY SEMINAR 14-15 FEB 2020

*Brought to you by Dr J. W. 'Skip' Truitt BS, DDS*

'My goal is to teach the latest information in a concise easy-to-understand manner to expand your practice financially and professionally.' Dr J.W. 'Skip' Truitt

This seminar has attracted over 200,000 dentists worldwide and is the most comprehensive post graduate course available. Face the facts...more ortho cases are now being treated on a non-extraction basis at an earlier age by general dental practitioners. If you wish to develop the orthodontic side of your practice, this is the course for you. A series of removable orthopaedic and functional appliances, designed to correct structural deformities prior to straightening teeth. It's easier than you think!

Dr Truitt's step-by-step tuition, backed by over 2,000 slides documenting numerous cases, will give you all the tools you need to begin treating cases immediately. You will learn the benefits of early interceptive treatment, how to correctly diagnose and then treat developing malocclusions that you see every day in your practice.

### Course Content

- Concepts of Orthopaedic treatment
- Defining the difference between a dental and skeletal malocclusion
- Cephalometric evaluation
- The importance of anchorage
- Appliance selection, construction and activation
- Case examples: Class I; Class II and Class III Malocclusions
- X-Bite correction, anterior and posterior
- Anterior open and closed bites

Free case evaluations are held break times and after each days lecture. You are encouraged to bring your study casts for assessment.

**DR J.W. 'SKIP' TRUITT DDS BS**  
Celebrating 50 years in Dentistry

Educator Dr. 'Skip' Truitt is the Director of Continuing Education for the Clinical Foundation of Orthopaedics, Orthodontics & TMD Therapy. Dr Truitt has over 40 years experience in maxillofacial orthopaedics, orthodontics and TMD therapy and in doing so, has developed treatment protocol that is both unique and highly successful. He has co-authored four text books and published numerous papers in various countries. Doctors from around the world use his service and years of experience to elevate their practice to another level. Dr. Truitt is an IAO Senior Europe, Australia, South Africa, Mexico, Thailand and Malaysia.
